

# Fees for Certification of Microgeneration Installers

(including Competent Person Scheme Registration)

Microgeneration Certification Scheme    The prices below are valid from 1st September 2011 until further notice

This fee sheet gives prices for several assessments conducted under one application (which could involve several visits, but will be certificated as one activity).

Microgeneration Certification Scheme (MCS) technologies available for certification are indicated on the application form (MCS/FOR/0010). Registration onto the NAPIT Competent Person Scheme (CPS) allowing self-certification of the MCS technology under the Building Regulations will be automatically granted. Related elements of CPS (e.g. Parts G, J, defined scope Part P and relevant elements of L) will be granted free of charge provided that CPS requirements are met during the assessment. Full-scope Part P CPS requires additional assessment.

Companies with more than 10 employees, multiple offices, or work outside the UK work, request a quotation.

## NAPIT Scheme Membership Fees (£, excluding VAT which should be added at the current rate)

NAPIT Assessments	Initial Registration & Certification	Annual Membership Renewal	Important note for existing NAPIT Members
One MCS Technology	480	360	Existing NAPIT Competent Persons Scheme Members will not be charged Initial fees for MCS, but will pay the lower MCS Annual fee on application.
