

Application form E:

Electrical Work

Electrical work can be assessed and certificated to meet the requirements of the following Government* or other schemes. Please indicate below which schemes you wish to join then complete the scope of assessment table to give more detail about the nature of your work.

Company Name:

Available Schemes		Tick
CPS	Competent Person Schemes (CPS) allowing self-certification against the Building Regulations in England and Wales	
TPC	Third Party Certification Scheme (TPC) allowing the member to certificate work such as DIY as complying with the Building Regulations in England	
EEM	Energy Efficiency Measures (EEM) via PAS2030 certification for installing energy efficiency measures including funding initiatives such as Energy Company Obligation (ECO). To carry out work under ECO, you will also need to be TrustMark registered.	
GDI	Green Deal Installer (GDI) , in addition to EEM certification an assessment against the Green Deal Code of Practice allows listing as a green deal participant for carrying out installation work funded with Green Deal finance.	
EAS	Electrotechnical Assessment Specification (EAS) for UKAS accredited certification for electrical installation work not covered by the above schemes	
N	NAPIT registration to demonstrate competence to install, inspect, test and certificate electrical systems and equipment outside the scope of government schemes	
TM	TrustMark is a scheme to help consumers identify a reputable tradesperson. NAPIT electrical scheme members doing domestic work are eligible to be listed as "Electrician" on the TrustMark site.	

ASSESSMENT

For electrical work, a single assessment will be arranged based on the scopes applied for below. Installation work will be assessed against the Electrotechnical Assessment Specification (EAS). Third Party Certification will be assessed against the Minimum Technical Competence document. EEM assessments will be assessed against the standard PAS2030. Defined scope assessment will be limited to the electrical work for the trade indicated.

The information below is required to determine the scope of the assessment needed for initial certification and ongoing surveillance (column A) and the detailed scope of certification to be covered within the assessment (column B). Please select from both columns.
