

This Guide is for use with the [NAPIT Application Forms](#) for electrical operatives, it is not a guide about electrical qualifications in general or for joining any organisations or schemes other than those shown on the form.

The document that details the requirements for certification and registration bodies (including qualifications) is the [Electrotechnical Assessment Specification \(EAS\) for use by Certification and Registration Bodies](#). This Guide expands on the EAS October 2024 and the [EAS Qualifications Guide - June 2025](#) by giving details of actual qualifications issued (both current and withdrawn) that meet its requirements.

The EAS work categories are as shown in the table below. In addition, this Guide provides information about qualifications recognised by NAPIT in electrical work not covered by EAS.

Index of Qualification Lists against scope of Registration

EAS Work Categories: For full details of the scope of the work categories above refer to Appendix 1 Table A1.1 of the EAS	Underpinning Core Technical Competence		Wiring Regulations	Initial Verification
	Dwellings	All		
	Lists 1/2/3	Lists 2/3	List 4	List 5
A1 Electrical installations up to and including 1000 V AC or 1500 V DC				
A1.1 Dwellings (BS 7671)	✓	✓	✓	✓
A1.2 Other than Dwellings (BS 7671)		✓	✓	✓
A1.3 Temporary electrical systems (BS 7909)*		✓	✓	✓
A2 Periodic inspection and testing: List 6				
A2.1 Dwellings (BS 7671)	✓	✓	✓	
A2.2 Other than Dwellings (BS 7671)		✓	✓	
A3 Electric Vehicle Charging Equipment (EVCE) Installation: List 9				
A3.1 Dwellings	✓	✓	✓	✓
A3.2 Other than Dwellings		✓	✓	✓
A4 Solar Photovoltaic (PV) Systems Installation: List 13				
A4.1 Dwellings	✓	✓	✓	✓
A4.2 Other than Dwellings		✓	✓	✓
A5 Electric Energy Storage Systems (EESS) Installation: List 14				
A5.1 Dwellings	✓	✓	✓	✓
A5.2 Other than Dwellings		✓	✓	✓
A6 Micro Wind Turbine Installation				
A6.1 Dwellings	✓	✓	✓	✓
A6.2 Other than Dwellings		✓	✓	✓

*A1.3 also requires BS 7909 training included in List 8

Electric Energy Storage Systems (EESS) Installation	List 14	A5.1/A5.2
Micro Wind Turbine Installation	List 15	A61./A6.2

The application form asks you to use Codes from one or more of the fifteen lists included in this Guide, please pay careful attention to the notes on the application form to see which parts of the form you need to complete.

To use this guide, look for the qualifications you hold in the following tables where you will find a **NAPIT Code** in the left-hand column, then use this code on the application form. If you have more than one qualification in a particular list, please indicate the one most recently awarded. The columns to the right hand of the tables give information that could help you to identify the qualification from the awarding body named on the certificate or the Ofqual number if it is shown.

ECS Cardholders

Qualifications referenced in Lists 1 to 6 may be evidenced by the individual providing their ECS card information (either ECS card number, image or CPD record) which can be freely verified using the ECS Check systems or CSCS Smart Check App.

An ECS Registered Electrician Gold Card with the occupation of Installation Electrician, which will show the relevant edition of BS 7671, may be sufficient to demonstrate the qualification requirements in Tables A4.7 to A4.10. A grading of Approved Electrician may be sufficient to demonstrate compliance with the qualification requirements of List 6.

An ECS Card with the occupation of Maintenance Electrician may be suitable, only if the underpinning qualifications held align with the requirements of Lists 1 to 6.

Where an ECS card is or has been held, ECS can verify if an individual's qualifications are sufficient when qualification certificates are inaccessible or unavailable. If a Certification / Registration Body wishes to develop an application programming interface (API) into the ECS database for automated verification of qualifications held, further information can be sought by contacting ECS directly here.

Please note, the JIB/SJIB ECS card alone is not sufficient evidence of meeting the qualification requirements, the card will need to be verified via ECS, and evidence retained.

If you have a qualification that you believe demonstrates electrical competence, but it is not listed, please contact NAPIT. We can review it, but cannot make a decision on a qualification that is not listed in the EAS Qualifications Guide.

Such a review may not be conclusive and might indicate the need for work by other agencies such as the awarding body for the qualification, the Sector Skills Agency responsible or, in the case of an overseas award the UK ENIC, operated and managed by Ecctis Limited

Important note for anyone applying as an EXISTING OR PREVIOUS (last 2 years) REGISTERED COMPETENT PERSON

Registration is available for someone transferring existing registration from another certification body or registering within two years of any previous registration with NAPIT or another certification body. Provided evidence is available of previous successful assessment(s), the scope of registration in this case will be the same as that currently/previously held, and the only qualifications evidence required is the Wiring Regulations Qualification from List 4 of this guide. If applying for a higher scope than previously held (e.g. previously a Domestic Installer but applying for All Electrotechnical Work), the qualifications requirements must be met and application form sections D, E, F and G must be included on the form.

Important note about RESPONSIBILITY requirements

Other than someone with existing or recent registration, applicants must have demonstrable evidence of 2 years' responsibility for technical standards of electrotechnical work and evidence of ongoing Continuing Professional Development. A person applying to undertake Periodic Inspection and Testing will be required to have at least 2 years' evidence of undertaking periodic inspection and testing, plus evidence of ongoing Continuing Professional Development. Section G of the application form can be used for this, although NAPIT may ask for further evidence. Practical experience gained whilst undergoing training is valid.

Important note about SITE ASSESSMENTS

Qualifications or certificates of competence are required for registration, but competence itself must be demonstrated in practice, and the site assessment element of the application process must also be satisfactorily completed. If the assessment finds weaknesses or evidence of a lack of competence NAPIT can require additional or repeat training and assessment to complete registration.

Important note about Qualifications from outside the UK**Qualifications from outside the UK**

When an Qualified Supervisor applicant has been trained outside the UK they need to demonstrate that they have fully met the same UK qualification standards as if they had been trained in the UK.

The Electrotechnical Skills Partnership (TESP) and ECS have developed a new service with the qualifications recognition body Educational Counselling and Credit Transfer Information Services (Ecctis), formerly known as UK Naric, that will map non-UK electrical qualifications against the specific knowledge requirements of the Experienced Worker Assessment referenced in this Qualifications Guide.

The Electrotechnical Experienced Worker Assessment enables those who trained outside of the UK to demonstrate they meet the requirements of the relevant underpinning core technical competence referred to in List 1.

In many cases, the applicant's existing qualifications will be recognised. However, in all cases, existing qualifications must be assessed and verified that they meet the same criteria as the UK requirements by taking the Ecctis Electrotechnical Skills Statement.

The service will provide the Qualified Supervisor applicant with an 'Industry Skills Statement' – further information can be found on the Ecctis website.

There will be no exemptions from the practical performance elements – even if the Qualified Supervisor applicant has significant practical experience of working overseas, they will still need to be working in the UK to complete the practical elements of the Experienced Worker Assessment. Practical assessments must be completed using work within the UK which can be verified/observed.

LIST 1 - Underpinning Core Electrical Competence, limited to dwellings only

This is suitable for electrotechnical work applications within dwellings. This qualification also covers Initial Verification, so you will not need an additional qualification from list 5.

Since the 1st of January 2019 it has been a requirement to hold a separate BS 7671 18th Edition qualification unless it can be evidenced that the qualification taken included the 18th Edition. The evidence will be subject to review by NAPIT.

*The last registration date for this qualification was 30/09/2022 and the certification end date is 30/09/2023.

**LCL Awards is a trading name of Logic Certification, qualifications may have been previously issued in this name.

***Either no longer available to new learners or no longer awarded.

LIST 2 - Underpinning Core Technical Competence, all Electrotechnical Work including dwellings

This is suitable for all electrotechnical work including in dwellings. These qualifications also cover initial verification so you will not need an additional qualification from list 5.

Since the 1st of January 2019 it has been a requirement to hold a separate BS 7671 18th Edition qualification unless it can be evidenced that the qualification taken included updates to the BS 7671 18th Edition. The evidence will be subject to review by NAPIT.

The reference to geographical region indicates where a qualification was available, the qualifications are acceptable for any region of the UK.

*Formal training programmes prior to 1994 will probably have followed an apprenticeship training programme. If this is the case, the final Apprenticeship Completion Certificate, Deeds or Diploma can be provided in lieu of the FICA, AM, AM1 or AM2. Applicants may also present more recent apprenticeship completion certificates from various issuing authorities without evidence of the underpinning technical qualifications or end point assessment certification. In these circumstances, the Certification or Registration Body must present each individual applicant details to The Electrotechnical Skills Partnership for verification against historical records. A formal decision notice will be issued.

Pre 1995 AM2 was issued in Scotland. From the summer of 1995 FICA was introduced, therefore AM2 is acceptable for qualifications issued before this time.

Pre 1995 AM2 was issued in Scotland. From the summer of 1995 FICA was introduced, therefore AM2 is acceptable for qualifications issued before this time.

LIST 3 - Underpinning Core Electrical Competence, all Electrotechnical Work Experienced Worker including dwellings

These are suitable for all electrical applications except *Portable Appliance Testing*.

You will need additional qualifications covering wiring regulations (list 4) and initial verification (list 5) and if applying for Full Scope for All Electrotechnical Work you will need an additional qualification for periodic inspection and testing from List 6.

LIST 3a – Underpinning Core Electrical Competence, Electrotechnical Work Experienced Worker in dwellings. (EAS Table A4.7 Route 3)		<i>For information</i>

EA405-18	Customised Award in Requirements for Electrical Installations to BS 7671 (18 th Edition) (2018)	SQA (SELECT)	218

* The Level 3 Installation / Maintenance Electrician apprenticeship qualifications (C&G 5357 / EAL 7345) and Level 3 NVQ diploma (C&G 2357 / EAL 1605) include the requirements of Table A4.9. If separate qualification certificates have not been issued, the Awarding Organisation or training provider can provide evidence.

**LCL Awards is a trading name of Logic Certification, qualifications may have been previously issued in this name.

LIST 5 - Initial Verification (INSPECTION AND TESTING)

This is an additional qualification required for work in dwellings unless you have completed a Level 3 Certificate or Diploma from lists 1 to 2 which included initial verification. If you have a qualification from list 6 that combined Initial Verification and Periodic Inspection and Testing, you do not need a qualification from this list.

LIST 5a – Initial Verification (INSPECTION AND TESTING) (EAS Table A4.10) Dwellings only		For information

Was EA521	Design and Verification of Electrical Installations	SQA [SELECT]	N/A
??	Tailored Award in Design and Verification of Electrical Installations	SQA [SELECT]	N/A
Was EA519-02	Customised Award in Inspection and Testing including Periodic Inspection	SQA [SELECT]	N/A
NAPIT Code	Qualification Title <i>Exact titles may vary from one awarding body to another</i>	Awarding Body Notes	Qualification Numbers (Ofqual)
EA529	No Longer Used	N/A	N/A

**Each of these awards may be achieved within a combined qualification(s).

*LCL Awards is a trading name of Logic Certification, qualifications may have been previously issued in this name.

LIST 6 - Periodic Inspection and Testing

This is an additional qualification required for all electrical work unless you hold a Level 3 Certificate or Diploma from lists 1 to 2 which included periodic inspection and testing.

List 6a - Periodic Inspection and Testing (EAS Table A4.11) All Electrotechnical work		For information	
NAPIT Code	Qualification Title <i>Exact titles may vary from one awarding body to another</i>	Awarding Body Notes	Qualification Numbers (Ofqual)
EA601	Level 3 Award in Electrical Installation Inspection, Testing, Certification and Reporting	EAL	603/2625/6
EA602	Level 3 Award in the Initial Verification, Periodic Inspection, Testing, Condition Reporting and Certification of Electrical Installations	LCL Awards*	601/5928/5
EA603	Level 3 Award in the Periodic Inspection, Testing and Certification of Electrical Installations	EAL	600/4338/6
EA604	Level 3 Award in the Periodic Inspection, Testing and Certification of Electrical Installations	LCL Awards*	601/5930/3
EA605	Level 3 Award in Periodic Inspection and Testing of Electrical Installations	C&G 2391-51	603/1273/7
EA606	Level 3 Award in Initial and Periodic Inspection and Testing of Electrical Installations	C&G 2391-52	603/1275/0
New	Customised Award in Inspection and Testing of Electrical Installations including Periodic Inspection	SQA (SELECT)	214
*LCL Awards is a trading name of Logic Certification, qualifications may have been previously issued in this name.			
List 6b – Older Qualifications - Periodic Inspection and Testing, (EAS Table A4.11) All Electrotechnical work		For information	
NAPIT Code	Qualification Title <i>Exact titles may vary from one awarding body to another</i>	Awarding Body Notes	Qualification Numbers (Ofqual)
EA607-01	Level 3 Award in the Periodic Inspection, Testing and Certification of Electrical Installations (QCF)	C&G 2395	600/3759/3 600/4693/4
EA607-02	LCL Level 3 Award in the Periodic Inspection, Testing, Condition Reporting and Certification of Electrical Installations (QCF)	Logic Certification	600/7247/7
EA608	Level 3 Award in the Periodic Inspection, Testing and Certification of Electrical Installations	C&G	600/4693/4
EA609 (EA524)	Level 3 Certificate in Inspection, Testing and Certification of Electrical Installations	C&G 2391	100/1293/X
EA610-01	Level 3 Certificate in the Certification of Electrical Installations	C&G 2391-08	100/1293/X
EA610-02	Level 3 Certificate in the Certification of Electrical Installations (inspection, testing and certification of electrical installations)	C&G 2391-10	500/3517/4
EA610-03	Level 3 Certificate in the Certification of Electrical Installations (design, erection and verification of electrical installations)	C&G 2391-20	500/3517/4
EA611	Level 3 Diploma in Inspecting and Testing Electrotechnical Systems and Equipment	EAL	500/3542/3

EA614	SQA (SELECT) Customised Award in Inspection and Testing of Electrical Installations to BS 7671: 2008 (2011) (17th Edition)	<i>SQA (SELECT) 214</i>	<i>N/A</i>
EA614-01	Customised Award in Inspection and Testing (including periodic inspection) of Electrical Installations	<i>SQA [SELECT]</i>	<i>N/A</i>
EA615	Customised Award in Inspection and Testing, including Periodic Inspection	<i>SQA [SELECT]</i>	<i>N/A</i>

*LCL Awards is a trading name of Logic Certification, qualifications may have been previously issued in this name.

LIST 7 - Portable Appliance Testing

If you have applied for Portable Appliance Testing, you must have one of the following qualifications (none of the other lists cover PAT requirements).

If your company has applied for “Managing the Maintenance of Electrical Equipment” they will need to provide evidence that someone within the company has a Level 3 in “Management Requirements for the Maintenance of Electrical Equipment” for which the following listed qualifications are a pre-requisite.

LIST 7 – Portable Appliance Testing		For information	
NAPIT Code	Qualification Title <i>Exact titles may vary from one awarding body to another</i>	Awarding Body Notes	Qualification Numbers (Ofqual)
EP701	Level 3 Award in the In-Service Inspections and Testing of Electrical Equipment (PAT)	C&G 2377-22	600/3597/3
EP702	Level 3 Award in the In-Service Inspection and Testing of Electrical Equipment (PAT)**	EAL	600/4340/4
EP703	Level 3 Award for In-Service Inspection and Testing of Electrical Equipment**	LCL Awards*	601/0491/0
EP704	Level 3 Certificate in Inspection and Testing of Electrical Equipment (Code of Practice for In-Service Inspection)	C&G	100/1235/7
EP705	Level 3 Certificate for the Inspection and Testing of Electrical Equipment (Code of Practice for In-Service Inspection)	C&G 2377-12	100/4339/1
EP706	Level 3 Certificate in In-Service Inspection and Testing of Electrical Equipment (PAT)	EAL	500/7547/0
EP707	Level 3 Award in the In-Service Inspections and Testing of Electrical Equipment (PAT)	C&G 2377-32	600/3597/3
EP708	Level 3 Award in the Management Requirements for the Maintenance of Electrical Equipment	C&G 2377-32	600/3528/6
EP709	Level 3 Award in the In-Service Inspection and Testing of Electrical Equipment	C&G 2377-77	603/6790/8

*LCL Awards is a trading name of Logic Certification, qualifications may have been previously issued in this name.

**EP702 and EP703 qualifications pre-date the new Code of Practice and as applicants holding these will need to pass the OAS and on-site assessment.

LIST 8 - Temporary Electrical Installations to BS 7909

If you have applied for Temporary Electrical Installation work you must have attended training and competence assessments specific to demonstrate knowledge, understanding and application of BS 7909.

LIST 8 - Temporary Electrical Installations to BS 7909		<i>For information</i>	
NAPIT Code	Qualification Title <i>Exact titles may vary from one awarding body to another</i>	<i>Awarding Body Notes</i>	<i>Qualification Numbers (Ofqual)</i>
ET801	Temporary Electrical Systems (3-day course for new entrants)	C&G Accredited NA7909-3 PTA7909-3	N/A
ET802	Temporary Electrical Systems (1 day course for experienced workers)	C&G Accredited NA7909-1 PTA7909-1	N/A

LIST 9 - Electric Vehicle Charging Equipment (EVCE) Installation to BS 7671

If you have applied for Electric Vehicle Charging Equipment (EVCE) Installation work you must have attended training and competence assessment specific to demonstrate knowledge, understanding and application of BS 7671 and IET Code of Practice (CoP) Electric Vehicle Charging Equipment Installation.

LIST 9a – Electric Vehicle Charging Equipment (EVCE) Installation to BS 7671 (EAS Table A4.12) in Dwellings only		For information	
NAPIT Code	Qualification Title <i>Exact titles may vary from one awarding body to another</i>	Awarding BodyNotes	Qualification Numbers (Ofqual)
Was EV906	Level 3 Award in the Design and Installation of Domestic and Small Commercial Electric Vehicle Charging Installations	C&G 2921-31	610/0899/0
Was EV907	Level 3 Award in the Requirements for the Design and Installation of Domestic and Small Commercial Electric Vehicle Charging Installation	C&G 2921-34	610/4640/1
Was EV904	Level 3 Award in the Requirements for the Installation of Electric Vehicle Charging Points	EAL	603/3929/9
Was EV905	Level 3 Award in the Installation and Commissioning of Electric Vehicle Charging Equipment in Domestic, Commercial and Industrial locations.	LCL Awards*	603/4908/6
New	Customised Award in Electric Vehicle Charging Equipment Installations	SQA [SELECT]	324
LIST 9a – Older Qualifications - Electric Vehicle Charging Equipment (EVCE) Installation to BS 7671 (EAS Table A4.12) in Dwellings only		For information	
NAPIT Code	Qualification Title <i>Exact titles may vary from one awarding body to another</i>	Awarding BodyNotes	Qualification Numbers (Ofqual)
EV901	Level 3 Award in Domestic, Commercial and Industrial Electric Vehicle Charging Equipment Installation	C&G 2919-1	600/7756/6
EV902	Level 3 Award in Domestic, Commercial & Industrial Electric Vehicle Charging Equipment Installation (City & Guilds 2919-01) Home Learning plus an Assessment	C&G 2919-1	600/7756/6
EV903	Level 3 Award in Domestic Electric Vehicle Charging Equipment Installation	C&G 2919-02	600/7374/3

EV902	Level 3 Award in Domestic, Commercial & Industrial Electric Vehicle Charging Equipment Installation (City & Guilds 2919-01) Home Learning plus an Assessment	C&G 2919-1	600/7756/6

*LCL Awards is a trading name of Logic Certification, qualifications may have been previously issued in this name.

LIST 10 - Fire Detection and Fire Alarm Systems for Buildings BS 5839-1:2017 BS 5839-6:2019+A1:2020

If you have applied for Fire Detection and Fire Alarm Systems for Buildings work you must have attended training and competence assessment specific to demonstrate knowledge, understanding and application of BS 5839-1, BS 5839-6 and BS 7671.

LIST 10 – Fire Detection and Fire Alarm Systems for Buildings		For information	
NAPIT Code	Course / Qualification Title <i>Exact titles may vary from one awarding body to another</i>	Organisation / Awarding Body Notes	Qualification Numbers (Ofqual)
FA10-01	BS 5839-6 Fire Detection and Fire Alarm Systems in Domestic Premises	NAPIT	N/A
FA10-02	Design, Commission & Inspect Fire Alarm Systems & Emergency Lighting Programme (NA-FA-3 & NA-EM-1)	C&G Accredited	N/A
FA10-03	FIRE DETECTION & FIRE ALARM SYSTEMS - UNIT 6 DOMESTIC	Certsure	N/A
FA10-04	Level 3 Award in the Requirements of Fire Detection and Fire Alarm Systems for Buildings BS 5839-1:2017	EAL	603/4906/2
FA10-05	Level 3 Fundamentals of the Recommendations for Fire Detection and Fire Alarm Systems in Domestic Buildings	FIA	603/6105/0
FA10-06	Level 3 Fundamentals of the Recommendations for Fire Detection and Fire Alarm Systems in Non-Domestic Buildings	FIA	603/5258/9
	Level 3 Award in the Requirements of Fire Detection and Fire Alarm Systems for Buildings BS 5839-1:2025	EAL	

LIST 11 - Inspection, Testing and Certification of Communications Cabinets / ICT Cabinets

If you have applied for INSPECTION, TESTING AND CERTIFICATION OF COMMUNICATION CABINETS / ICT CABINETS work you must have attended training and competence assessment specific to demonstrate knowledge, understanding and application of BS 7671 in relation to ICT Cabinets.

LIST 11 – Inspection, Testing and Certification of Communications Cabinets / ICT Cabinets		For information	
NAPIT Code	Qualification Title <i>Exact titles may vary from one awarding body to another</i>	Awarding Body Notes	Qualification Numbers (Ofqual)
NA-ICT	Understanding the Requirements to Inspect, Test, Certify and Report Electrical Installation to Communications Cabinets/ICT Cabinets	C&G Accredited	N/A

LIST 12 - Insufficient Qualifications

This lists technical knowledge qualifications that are commonly presented by applicants but held alone, are insufficient. Technical knowledge qualifications are important to demonstrate understanding. However, the guiding principle is that qualifications are required which evidence sufficient workplace performance with robust assessment to demonstrate occupational competence, in line with recognised industry standards. Other qualifications may have electrotechnical content, however, are more focused on engineering disciplines and therefore do not fully align with the EAS lists 1-6.

LIST 12 – INSUFFICIENT QUALIFICATIONS		For information	
NAPIT Code	Qualification Title <i>Exact titles may vary from one awarding body to another</i>	Organisation / Awarding Body Notes	Reason
IQ-001	Certificate in Electrotechnical Technology Level 3	C&G 2330	These are classroom-based technical knowledge qualifications. They are part of / a pre-requisite to acceptable work-based evidence qualifications, such as the Installation / Maintenance Electrician or Domestic Electrician apprenticeship, Level 3 NVQ with AM2 or the Experienced Worker Assessment (EWA) all with the relevant version of AM2 (AM2S, AM2 and AM2E respectively).
IQ-002	Certificate in Knowledge of Electrical Installation Engineering Level 3	C&G 2351	
IQ-003	Diploma in Electrical Installations (Buildings and Structures)	C&G 2365	
IQ-004	Level 3 Advanced Technical Diploma in Electrical Installations (Buildings and Structures)	C&G 8202-30	
IQ-005	Level 3 Diploma in Electrical Installation	EAL 9331	
IQ-006	National Certificate Building Services Engineering (Electrical Installations)	BTEC	Focused on installation of lifts / hydraulics / escalators
IQ-007	Level 3 Diploma in Commissioning and Installation	EAL 0733	

LIST 13 - Solar Photovoltaic (PV) Systems Installation

If you have applied for Solar Photovoltaic (PV) Systems Installation, you must have attended training and competence assessment specific to demonstrate knowledge, understanding and application of BS 7671 and shall include the IET Code of Practice (CoP) for Grid Connected Solar Photovoltaic Systems.

LIST 13a – Solar Photovoltaic (PV) Systems Installation (EAS Table A4.13)		For information	
NAPIT Code	Qualification Title <i>Exact titles may vary from one awarding body to another</i>	Awarding Body Notes	Qualification Numbers (Ofqual)
New	Level 3 Award in the Installation of Small Scale Solar Photovoltaic Systems	BPEC	N/A
Was EPV110	Level 3 Award in the Installation and Maintenance of Small Solar Photovoltaic Systems	C&G 2922-34	610/4841/0
Was EPV102	Level 3 Award in the Installation of Small Scale Solar Photovoltaic Systems	EAL	600/5175/9
Was EPV103	LCL Level 3 Award in the Installation and Maintenance of Small Scale Solar Photovoltaic System (IMSSSPV)	LCL	600/5775/0
LIST 13a - Older Qualifications - Solar Photovoltaic (PV) Systems Installation (EAS Table A4.13)		For information	
NAPIT Code	Qualification Title <i>Exact titles may vary from one awarding body to another</i>	Awarding BodyNotes	Qualification Numbers (Ofqual)
New	Level 3 Award in the Installation of Small Scale Solar Photovoltaic Systems	C&G 2399-13	600/5696/4
New	Level 3 Award in the Installation and Maintenance of Small Scale Solar Photovoltaic Systems	C&G 2399-14	600/5695/2
Was EPV104	Level 3 Award in the Installation of Maintenance of Small Scale Solar Photovoltaic Systems	BPEC	QAN 600/6283/6

LIST 14 - Electrical Energy Storage Systems (EESS) Installation

If you have applied for Electrical Energy Storage Systems (EESS) Installation, you must have attended training and competence assessment specific to demonstrate knowledge, understanding and application of BS 7671 and shall include the IET Code of Practice(CoP) for Electrical Energy Storage Systems.

LIST 14 – Electrical Energy Storage Systems (EESS) Installation (EAS Table A4.14)		For information	
NAPIT Code	Qualification Title <i>Exact titles may vary from one awarding body to another</i>	Awarding Body Notes	Qualification Numbers (Ofqual)
Was ES101	Electrical Energy Storage Systems (EESS)	BPEC	N/A
Was ES104	Level 3 Award in the Design, Installation and Commissioning of Electrical Energy Storage Systems	C&G 2923-34	610/4840/9
Was ES102	Level 3 Award in the Design, Installation and Commissioning of Electrical Energy Storage Systems	EAL	610/2091/6
Was ES103	Level 3 Award in the Design, Installation and Commissioning of Electrical Energy Storage Systems	LCL Awards	603/7131/6

LIST 15 - Micro Wind Turbine Installation

If you have applied for Micro Wind Turbine Installation, you must have attended training and competence assessment specific to demonstrate knowledge, understanding and application of BS 7671

LIST 15 – Micro Wind Turbine Installation (EAS Table A4.15)		For information	
NAPIT Code	Qualification Title <i>Exact titles may vary from one awarding body to another</i>	Awarding Body Notes	Qualification Numbers (Ofqual)
N/A	No Qualifications Currently Available	N/A	N/A
